“CadMac provides clients with a complete Marine Services Solution.”

Company Profile

CadMac is a South African based, innovative, committed and globally orientated specialist marine service supplier. CadMac is driven to ensure client satisfaction and confidence in not only lifeboats, but in all Marine Safety Systems and Equipment serviced, inspected and maintained by our experienced service teams.

Background

CadMac Marine Services (Pty) Ltd was founded from a passion, interest and professional understanding in all Marine Safety Issues.

Drawing upon Marine Technical professional expertise, the knowledge and competence of an experienced service team and the command experience of our founder, a Master Mariner, to ensure as piers and fellow mariners we understand our customers' needs.

CadMac Marine Services (Pty) Ltd as mariners realizes that we have a responsibility and an obligation in safeguarding the safety of life for all, who use our seas and oceans. A unique situation that will nurture trust, confidence and predictability, by working together in line with international and industry rules, standards and guidelines, to ensure that CadMac Marine Services (Pty) Ltd is the preferred Marine Service Provider.

Services Team

Our service teams are proficient and accomplished with various Manufacturer's life-saving appliances, which is spearheaded by a Senior Service Engineer, an Artisan with over 15 years industry experience and knowledge in maintaining, servicing and testing marine safety systems and equipment.

Founder

As a Master Mariner, our CEO is in a rare position to appreciate both from a customer's (having the privilege and responsibility of sailing as Master) and as a Service Provider's perspective, that there can be no compromise when it comes to the safety of lives. This ethos is at the very heart of CadMac's development and realisation.

01

Lifeboat and Davit Services

All services offered by CadMac Marine Services (Pty) Ltd are in accordance with the systems for inspection, safety precautions and services developed by the manufacturer. Consistent with the rules, standards and guidelines required by SOLAS regulation 111/20, (Operational readiness, maintenance and inspections) SOLAS regulation 111/36 (Instructions for on-board maintenance), as applicable, and MSC.1/Circ.1206/Rev.1. and MSC.1/Circ.1277.

Adhering to the principles of a uniform, safe and documented performance of periodic servicing and maintenance of lifeboats, launching appliances and on-load release gear. To ensure that all services offered have functioned correctly, as per manufacturer's design and remain fit for purpose.
